Summary

As a software engineering student, I'm motivated to learn and grow in the field of computer science and problem-solving. I design, develop, and maintain scalable software solutions using C, C+ +, JavaScript, Python, HTML, CSS, and SQL. I'm familiar with Agile methodologies and collaborative development, and I'm committed to continuous learning and delivering efficient, well-documented code

Experience

DHA Suffa University

Company Description

- *Travel planner System (2023 - Present)*
- Developed a Travel planner in Java using Swing GUI for patient registration,
- scheduling, billing, and record tracking.
- Designed and optimized a MySQL relational database for efficient data storage and retrieval.
- ***TOOLS & PLATFORMS***
- Programming Languages: C, C+ +, JavaScript, Python, HTML, CSS
- Frameworks/Libraries: Swing (Java GUI)
- Databases & Tools: MySQL, (familiarity), Linux, Windows, VS Code

Education

DHA SUFFA university

DHA Suffa University: Bachelor of Science in Software Engineering (4th semester completed), CGPA: 3.7 / 4.0

Skills

Team Collaboration   Time Management   Agile Project Management   Problem solving

Languages

English Advanced ● ● ● ○ ○   Urdu Native ● ● ● ● ●

Key Achievements

☐ Winner of Scratch Competition
   Winner of Scratch Competition at DHS University, demonstrating strong problem-solving skills by creating logical sequences in Scratch to make a game out of
